ARREST GRUNAU STRIKE LEADER

Head of Outlaw Yardmen's Association Charged With Lever Act Violation

STRIKE FAST DYING OUT

Nearly Normal Conditions, Including Tubes, Once More Exist in Metropolis

Chicago, April 19. — John Grunau, head of the outlaw yardmen's association, was taken to the county jail at Joliet today by federal officers after he had refused to give \$100,000 bond on a charge of violating the Lever act, for which he was arrested Thursday with 21 other strikers. Federal officers said Grunau had violated his promise to remain out of the union meetings.

New York Strike Over

New York, April 19. — With the resumption of traffic in the tubes of the Hudson and Manhattan railroads this afternoon, the outlaw strike of railroad employees was virtually at an end, so far as New York city is concerned. Nearly all the steam railroads reported general improvement regarding freight conditions, with a large number of trains being moved, while passenger service was said to be nearly normal.

Railroad officials denied statements by the strikers' committee that most of the strikers who obeyed the railroad managers' ultimatum had gone out again. It also was denied that there were a thousand men still out of the Metropolitan district, as claimed by Edward McHugh, strike leader, before the labor board at Washington.

The resumption of service through the tubes between New York and Jersey City, while it lasted only three hours, accommodated thousands of commuters and will be resumed at 7 o'clock tomorrow morning. The service, it was said, will be increased daily and normal conditions again prevail.

Hudson Tubes Again Operating

New York, April 19. — Traffic through the tubes of the Hudson and Manhattan railroads between New York and Jersey City, the last branch of railroad service in the metropolitan district to break the barrier of the outlaw strike of railway employees, was resumed between 4 o'clock this afternoon and 7 o'clock tonight. At the latter hour the trains were stopped for the night and announcement made that the service would be resumed tomorrow morning at 7 o'clock. The tube service was completely tied up April 18, by the strike of the trainmen, and when the trains started running this afternoon thousands of commuters used them. Many protested against the new rate of fare, which is six cents. The former fare was five cents.

Oren Root, president of the Hudson and Manhattan railroads, said he believed about 75 of the 300 trainmen who were on strike had returned to work and it was the intention to increase the service to normal as speedily as possible.

Railroad managers announced they would continue their efforts to fill places of employees who have not returned.

The Pennsylvania, the Long Island, the Central of New Jersey, and the New York, New Haven and Hartford, announced passenger service was 50 per cent normal. The Lackawanna, which was seriously crippled by the walkout, posted a notice in its ferry boats that "all train service starts at 5 a. m. today, strike over."

Train dispatchers of the New York Central reported 25 per cent of the strikers had reported for work. The Erie still was greatly handicapped and nearly all its suburban trains operated today were manned by volunteers. Normally 100 trains are run by the Erie for commuters, but only thirty were reported operating today. The Pennsylvania's 6:30 o'clock local for Philadelphia was run this morning for the first time since the strike began.

Increased ferry service enabled commuters from New Jersey to reach their work in Manhattan, although the Hudson tubes through which much of the traffic normally flows, remained closed.

Despite the return to work, approximately 2,000 strikers reconvened to in Jersey City. They decided to strike that the strike was broken. Strikers remaining out indicated they would not take any action until they were received from Edward McHugh, chairman of their executive committee, which left for Washington to consult with the new labor board in regard to quick consideration of their grievances. The committee represented strikers in Jersey City, New York and other places.

200 Back at Cleveland

Cleveland, Ohio, April 19. — Two hundred striking switchmen returned to work at the Nickle Plate, Baltimore and Ohio and Wheeling and Erie yards at 10 o'clock this morning. The men are members of the I. M. Ferris lodge, Brotherhood of Railroad Trainmen who voted last night to return to work today. Rail-

FLYING SQUADRON NETS "HIGH PRICE" DEALERS

One Profiteered in Sugar, It Is Alleged, and Another Profiteered in Potatoes

New York, April 19. — Charged with making an unlawful profit on the resale of sugar, E. H. Sherburne, member of a Boston sugar importing firm, was arraigned here today before United States Commissioner Hitchcock. The complaint, which was made by members of the government's "flying squadron," alleges Sherburne purchased 500,000 pounds of San Domingo sugar from a produce firm at 14 1/2 cents a pound and resold it for 21 1/2 cents a pound. The complaint alleges that he made \$100,000 more than a reasonable profit by the transaction. Sherburne was held in \$100,000 bail.

The "flying squadron" also charged John McElroy, a produce merchant, with profiteering in potatoes. Government agents claimed McElroy purchased potatoes at \$3.50 a hundred pounds and resold them at \$8.00 cents a hundred pounds. He furnished \$100,000 bail.

Sixty retail dealers in New York have purchased 1,000,000 pounds of army beef at 10 1/2 cents a pound, it was stated today at the office of the "flying squadron." Agents are watching these dealers and prosecutions will follow if an unfair profit is made on the resale of the meat.

Fill Odell Jury Panel

Rochester, April 19. — The jury for the trial of James L. Odell, indicted jointly with his wife, Pearl Deaver Odell, for the murder of Edward Keppel on the night of January 7, was completed at 5:45 o'clock this afternoon after 142 talismen had been examined. District Attorney William F. Love will open the case for the prosecution tomorrow.

AGAIN URGES ACTION ON WINE-BEER BILL

Colonel Gillette Wages a Determined Fight to Put Assembly on Record Officially

Albany, April 19. — Colonel Ransom H. Gillette, Republican of the assembly from Columbia, tonight announced that he would again request the rules committee to report his light wine and beer bill. If the committee does not grant his request, he said he would move to discharge it from further consideration of the measure.

Colonel Gillette said he had expected the supreme court would render a decision today on the constitutionality of the Volstead act and other phases of the prohibition amendment. This, he said, was the reason he did not move to discharge the excise committee from consideration of his bill when it was in that committee. "Now, however," said Colonel Gillette, "with adjournment only a few days off, I'm going to have the assembly go on record on a beer bill. If rules doesn't report it out, I'm going to move to discharge the committee. I don't know whether I can get the bill out of committee by this procedure, but I do know that it will put the assembly on record on this all important question."

GREEK WINS BOSTON MARATHON

Runner's Time Slower Than Record, Yet Faster Considering Adverse Wind Conditions

Boston, April 19. — The Marathon road race, commemorating the feat of a Grecian soldier who ran from the plains of Marathon to Athens with a military message and then dropped dead, was won today by a native Marathon, Peter Triivoloudis. A resident of New York, but still a subject of Greece, he proved the fastest of a field of 59 runners. The classic 26-mile race was the official test for election of the United States representatives at the Olympia.

Triivoloudis' time, eight minutes slower than the record, but fast considering a partly adverse wind, was 2 hours, 29 minutes, 31 seconds.

Second to the sturdy Greek was Arthur V. Roth of the Dorchester club, Boston, who won the race in 1916. Last year's winner, Carl W. A. Linder of Quincy, was third. William Wick, also of Quincy, who was second to Linder a year ago, was fourth, and Edwin H. White of Holy Cross Lyceum, New York, was fifth.

EXPUNGE THOMPSON CHARGES

Albany, April 19. — The senate tonight voted to expunge from its records the charges made by Senator George F. Thompson in debate last Tuesday, that liquor was used in large quantities to influence votes in the assembly for the expulsion of the Socialists.

MUCH NATIONAL ADVERTISING

New York, April 19. — The volume of national newspaper advertising last year reached \$150,000,000, according to the annual report of the bureau of advertising, American Newspaper Publishers' association, submitted today.

Road officials expected that the remainder of the 500 lodge members would be back before night.

REFUSE TO HEAR STRIKERS' WOES

New Rail Labor Board Listens Only to Those Seeking to Avoid Tieup

CONTINUE WAGE TALK

Claims of Nearly 2,000,000 Men Which Bi-Partisan Board Left Considered

Washington, April 19. — Undeterred by the refusal of the railroad labor board to hear them today, representatives of the railroad strikers announced that they would present written complaints, together with demands for a "living wage" to the board which tomorrow will begin formal hearing on the big wage controversy.

The board flatly declined to "receive entertain or consider" complaints from strikers. Declaring it would only hear those who were adopting every reasonable means of avoiding interruption of railroad service.

The board will proceed with the wage dispute involving claims of nearly 2,000,000 men, which failed of adjustment when the bi-partisan board ceased to function in April. Heads of the four brotherhoods and the chairman of the Association of Railway Executives, all of whom were present today, will attend.

Urges Speedy Settlement

Timothy Shea, president of the Brotherhood of Railway Firemen and Engineers, said tonight that speedy settlement would be urged. Refusal of the board to hear strikers, Shea said, would have the effect of sending all of the strikers back to work, many of whom had been led astray, he thought, in the belief that the board might recognize them.

Delegations claiming to represent railroad men of all crafts in various cities, who have quit work, appeared at the offices of the board today demanding assurances of a "substantial guarantee of increased wages," which they said would send strikers back to work. They compose an unorganized association, they said, known as the railroad workers of America, insisting that they still retain their membership in the recognized unions, since they had not "struck" but had only "gone on a vacation."

After adopting rules of procedure for hearing disputes, the board admitted several delegations.

Strikers Not to Be Considered

Immediate protest was entered by W. N. Doak, vice president of the Brotherhood of Railroad Trainmen, who contended that the officers of the 15 railroad organizations present represented the men unless they had quit their jobs, in which case they were no longer employees of the railroads or members of a recognized union. General dissatisfaction with the board's action was expressed by the railroad workers. Edward McHugh, representing strikers in New York and New Jersey, declared that he would continue his efforts to obtain some assurance of an increase from the board, adding that 8,000 men in the New York district would not go back to work until such assurance was received.

Viscous objection was expressed by the representatives to the term "striker." They claim that they have not struck as there has been no order from the officials of their union adopted by referendum vote, but that they merely laid down their tools until they could get more pay.

ASSOCIATED PRESS MEETS

Annual Meeting of News Gathering Association Will Be in New York Today

New York, April 19. — The annual meeting of the Associated Press will be held tomorrow at the Waldorf Astoria. Directors, advisory board and auditing and nominating committees will be elected.

The retiring directors, who have been re-nominated, are Frank B. Noyes, Washington Star; W. L. McLean, Philadelphia Bulletin; Adolph S. Ochs, New York Times; A. C. Weiss, Duluth Herald, and John R. Rathbone, Providence Journal.

ARRAIGN STRIKE LEADERS

New York, April 19. — Thomas J. McGill, leader of the strike of seven thousand elevator operators here, today was ordered to appear tomorrow before Clarence F. Fay, commissioner of public works, to answer charges that he was absent without leave from his post as an elevator starter in the municipal building. McGill, who draws a salary of \$1,500 a year from the city, is alleged to have directed the strike while on "sick leave" and drawing pay from the city.

OVERALL FAD GAINING CONVERT EVERYWHERE

New York Girls Join Movement by Organizing "Middy" Club of Their Own

New York, April 19. — Supported by many prominent men and women, the overall and gingham movement continued to gain converts here tonight. Heads of business concerns, officials and actors donned blue denim or calico and announced their intention of backing the campaign.

Jacob Luft, president of the Cetus Chemical company, declared 12,000 employees of his concern have agreed to wear overalls and that he will encourage workers in six other factories in which he is interested to join the movement. Several hundred backers of the movement marched through the theatrical district this evening, singing and urging spectators to don blue denim and join the parade. The parade included 150 boys from the Jamaica High school, 120 students from DeWitt Clinton High school and 70 from the girls' high school.

Members of the Rotary and Cheese club also were in the procession. Men who have refrained from joining overall clubs here because of the styles prevailing in the loose garments will have an opportunity of purchasing suits of denim in the latest fashion according to an announcement by a firm of theatrical costumers.

Girls employed as stenographers, clerks and secretaries by the Serbian Child Welfare association, today organized a "middy" club. The girls expressed the intention of replacing Georgette and other expensive waists with middy blouses and wearing cotton skirts.

Mayor Frank J. Van Noort of Patterson, New Jersey, expressed himself in sympathy with the movement, although he said he intends to wear out his old clothes before he dons overalls.

SALVATION ARMY PLANE OFF

Craft Laden with Home Service Fund Campaign Supplies Flies up Hudson

Albany, April 19. — The first airplane to sail up the Hudson river this season was the United States army airplane A. S. P. 3223, which hopped off at Mitchell field, United States army aviation field, Garden City, Long Island, at 2:10 yesterday afternoon and landed at the Quantico Roosevelt field, Albany, at 4:05.

The airship carried an emergency shipment of supplies to be used in the Salvation army home service fund campaign, which is to run throughout the United States from May 10 to 20. Due to the congested conditions of the postal and express services, the United States army aviators came to the rescue of the Salvation army by offering their services in the distribution of supplies, which are needed to give an early start to the campaign.

The machine bore the slogan: "Dear Salles, one good turn deserves another," and was piloted by Lieut. John P. Roullot with Sergeant B. Ryan Coleman, mechanic. Lieutenant Roullot was met at the field in Albany by Chauncey D. Hakes, chairman of the Albany Chamber of Commerce aviation committee, Brigadier William G. Anderson, head of the Eastern New York division of the Salvation army; Edmund Silverbrand, campaign director; George S. DeRouville, division publicity director, and Carl J. Norstrand, field manager. Lieut. Roullot started on the return trip 15 minutes later. He reported that another airplane piloted by Capt. Harry M. Smith and Sergeant Charles Byron left Mitchell field two minutes ahead of him with supplies for Buffalo. Lieut. Roullot said that he and all of the aviators and all of the men in the United States army desired to show their appreciation of the great work which the Salvation army had done during the war by assisting in every way to make the coming home service fund campaign successful.

DISMISS POSTS PETITIONS

Washington, April 19. — On the motion of the New York Evening Post company the supreme court today dismissed petitions filed by the company asking for review of judgments for \$17,500 award by the federal district court in New York to John Armstrong Chaloner, of Merry Mills, Virginia. Chaloner sued the company as a result of an article published by the Evening Post concerning the killing of John Giliard by Chaloner at Merry Mills in 1909.

GRANT \$25,000 APPROPRIATION

Albany, April 19. — Governor Smith's request for an appropriation of \$25,000 for the expenses of his labor board to promote better relations between workers and employers and to prevent strikes and lockouts, was granted by the assembly tonight when it passed the Donohue bill, which carried out recommendations of the Governor.

WANT SWEET FOR GOVERNOR

Oswego, April 19. — The Oswego County Republican committee today adopted a resolution urging Speaker Thaddeus Sweet of the state assembly to become a candidate for governor on the Republican ticket. Speaker Sweet lives in Phoenix, in Oswego county.

SUSPECT JOKERS IN SAGE PROPOSAL

Movement to Defeat Governor's Reconstruction Program Is Feared by Some

JENKS BILLS ARE LOST

Ruling by Speaker Sweet Thwarts Movement to Obtain Vote on Proposals

Albany, April 19. — Two more proposals for constitutional amendments in connection with the reconstruction program of the Republican majority, were introduced in the legislature tonight by Senator Henry M. Sage of Albany.

Last week a constitutional amendment was proposed by the Republican leaders so as to bring about the amalgamation of the departments of prisons, hospitals and charities into a new department of mental hygiene, charity and correction. The amendment presented tonight offered two distinct proposals, which if ratified by the present legislature, would be left to the 1921 and the 1922 legislatures for ultimate decision. One is intended to make the office of governor, lieutenant governor, comptroller and attorney general elective, and to make the offices of secretary of state, state engineer and state treasurer appointive. The other would make the same provision except in the case of state treasurer, which it is proposed to make an elective office only in the event that the departments of finance and taxation are consolidated.

The amendments would provide that all department heads be appointed by the governor and removed by him with the consent of the senate. They would forbid the creation of new state departments, but would allow the legislature to consolidate departments.

As soon as the proposed amendments were submitted to the legislature tonight, Governor Smith's reconstruction commission issued a formal statement criticizing them, declaring that "jokers were concealed in them" and intimating that their introduction was part of a plan to defeat the governor's reconstruction program as embodied in bills previously introduced by Senator L. H. W. Gibbs of Erie.

More to Rescue Jenks Bills

Albany, April 19. — Efforts to revive the life of the judiciary committee until such time as it would take another vote on the Jenks bills, which are designed to permit increased trolley fares, failed in the assembly tonight when Speaker Thaddeus C. Sweet ruled that resolutions for this purpose were not privileged.

One resolution was offered by Assemblyman George M. Jeffe and another by Assemblyman Sol Ullman, both of New York. Assemblyman William S. Evans of the Bronx, a member of the judiciary committee, was not present at the meeting of the committee on Friday at which a vote was taken over a ruling by Chairman Louis M. Martin that the committee was without power to act and wanted to know why such action was taken. Mr. Martin explained that he had been overruled when he decided the committee was without power to act, and still contended that the committee would not grant authority for voting on the bills. The vote was 6 to 5 and inasmuch as a majority for or against the measures was not obtained, the bill went into rules committee. Speaker Sweet in reply to a statement by Assemblyman Morris Bloch of New York that it was foolish and stupid to have a hearing on bills it could not vote upon under the wording of the resolution which extended the life of the judiciary committee so it could have the hearing, said:

"The hearing before the judiciary committee was for the purpose of having 13 members of the house hear both sides of the question so they could understand the situation if the bill came before the house for passage."

Assemblyman Theodore Stitt of New York, another committee member who was absent on Friday, rose on a point of personal privilege to explain his absence and to say that Chairman Martin at no time practiced deception on him.

FOUND PORTER IN RAID ON QUESTIONABLE FLAT

A Plain Clothesman Testifies Against Police Commissioner in New York Vice Inquiry

New York, April 19. — Augustus Drum Porter, who was third deputy police commissioner until his recent indictment on charges of neglect of duty, was found in a compromising position with a woman November 12, last, in a raided upper West Side apartment, police detectives testified at his trial here today.

Hilbert Wheelwright, a member of the "vice squad" for two years prior to his transfer last March to patrol duty, declared that he and two other plain clothesmen saw the third deputy commissioner enter a West 96th street apartment, accompanied by a woman dressed in deep mourning. Wheelwright testified that he and Fred Sorger, a plain clothesman, later entered the apartment by way of the fire escape, the door to the room having been fastened by a book inside. There he said, he found Porter and the same woman.

The deputy commissioner first gave his name as Clarence Wolf of Brooklyn, Wheelwright said. Later, in another room, he told him he was "third deputy police commissioner," and showed his badge, pistol and some letters to prove it, the witness said. After that he "told me not to arrest the woman," Wheelwright stated. Mr. Porter told him to say nothing about the "nasty situation you found me in last night," the witness continued, and declared that as long as he was third deputy police commissioner, Wheelwright and the other would have all the protection he could give them.

New York, April 19. — District Attorney Swann declared tonight "he could scarcely credit the information" that Governor Smith had ordered Attorney General Newton to enlarge the scope of the extraordinary grand jury's investigation of the district attorney's office.

Mr. Swann said that grand juries had not the right to start general investigation of public officials unless specific charges are made. Referring to the case of the People vs. Tatum, Mr. Swann said that Justice Garrison had remarked that the institution of a general investigation by a grand jury, although ostensibly in the public interests, is not to be encouraged even if it has any warrant in law.

MAKES TENANTS PAY MORE RENT OR MOVE

Bronx Justice Wages War on Tenants' Soviet Which He Says Must Go

New York, April 19. — Municipal Court Justice Peter Shell of the Bronx, today turned the new rent laws against the tenants instead of the landlord.

He took the stand in the case of families who refused to pay an increase of four dollars to their landlords whose attorney stated she had been paying the upkeep of the house out of money she had earned by working. Her counsel added that recently she had fallen ill and that unless she raised the rent she would lose her property by foreclosure. He asserted, however, that she would compromise by making only a two dollar advance.

Justice Shell thereupon characterized the case as one of profligating by tenants and directed the landlord's attorney to stand pat on the \$4 raise. He ordered the tenants to pay their rent or vacate by Wednesday.

"These tenants," said the judge, "have a Soviet of their own. They are a bunch of pirates and I am going to break it up."

Francisco La Falco, a landlord, was held today in \$500 bail for examination Wednesday on a charge of felonious assault and Joseph Albatta, one of his tenants is a patient in a hospital with a possible fracture of the skull, also a prisoner, charged with felonious assault.

According to the police, LaFalco sent word to Albatta that his rent would be raised May 1. Albatta, it is said, met the landlord last night with a knife and tried to cut off part of the latter's nose.

PROPOSE GROSS SALES TAX TO PROVIDE SOLDIER BONUS

Washington, April 19. — House Republican leaders tentatively agreed today to raise funds for soldier relief by a gross sales tax of not more than one per cent.

Under this plan, which it was decided to present to the house about May 1, the cash payment would be in quarterly installments, beginning January 1, 1921.

Vigorous opposition to the gross sales tax already has been expressed by some Democrats and leading Republicans.

IN HONOR OF ROOSEVELT

Albany, April 19. — The Trahan bill, which is intended to make the birthday of the late Colonel Theodore Roosevelt, October 22, a legal holiday, was passed by the assembly tonight. The vote was 190 to 32, those opposing the measure doing so on the ground that there are too many legal holidays in this state.

GEDDES DENIES IRISH QUARREL

New British Ambassador to States Talks of Much Discussed Home Rule Bill

CITES RUSSIAN STATUS

Briton Considers Appointment to Washington Highest Privilege He Could Hope For

New York, April 19. — Declaring that in this generation there is no quarrel between England and Ireland, Sir Auckland Geddes, new British ambassador to the United States, asserted on his arrival today that the Irish in Ireland should be allowed to grapple with their own political difficulties without outside interference.

Asserting that it takes two to make a quarrel and that the present generation of Englishmen has steadfastly refused to quarrel with Ireland, he said that when the new home rule bill becomes operative, it will be "the duty of all British subjects who are not domiciled in Ireland to stand aside and leave those who live there to solve their problems."

Would Leave Ireland Alone

"I venture to add," Sir Auckland continued, "that it will also be helpful if the many in all parts of the world who are not British subjects but are interested in Ireland likewise stand aside and leave the Irish to grapple with their own political difficulties."

Commends British Policy

"For generations England has given sanctuary to representatives of the discontented and the unhappy, the oppressed and the down trodden. To avoid worse evils than those we seek to remedy it is often necessary to move with slowness, always with caution; but one thing I can say positively and without fear of enforced contradiction, the inspiration of British policy during the period I have known it, has been, if possible, to bring order out of chaos, to extend the boundary of freedom, to improve the lot of the oppressed, to increase the material prosperity of the world."

"We are trying now as always to meet the legitimate aspirations of the dependent peoples such as those in India and in Egypt so far as in our judgment is possible without working a mischief where we seek to do good."

"Similarly in Ireland, we are trying to provide political machinery whereby the antagonized sections of the Irish people can work out their own internal political salvation without ruin to Irish interests. If it be true that it takes two to make a quarrel, there is in this generation no quarrel between England and Ireland for the present generation of Englishmen has steadfastly refused to quarrel with Ireland. The British government after careful study of the Irish question is convinced that now the only hope of ending that centuries old distemper is to place fairly and squarely on the shoulders of Irishmen in Ireland the constitutional responsibility of finding for themselves within the frame work of the British empire the solution for their political differences."

Submit Secession Proposals

"The new home rule bill is designed to secure that end. When it becomes operative it will be the duty of all British subjects who are now domiciled in Ireland to stand aside and leave those who live there to solve their problems. I venture to add that it will also be helpful if the many in all parts of the world, who are not British subjects, but are interested in Ireland likewise stand aside and leave the Irish in Ireland to grapple with their own political differences."

"It should, I think, be known that proposals for the cession of Ireland from the British empire have been submitted to the British cabinet, but as announced by the prime minister in the house of commons, has been rejected. A sufficient reason, though only one of many, is that strategically the British Isles form one unit for purposes of defense."

DEFER RADICAL DEPORTATIONS

New York, April 19. — Warrants for the deportation of 125 of the alleged Reds rounded up last January by the department of justice have been cancelled, according to an announcement today by Byron H. Uhl, acting commissioner of immigration of Ellis Island. He added that 250 cases had been heard and the records sent to the department of labor.

38 CATTLE CONDEMNED

C. J. ARMSTRONG & SONS OF MILFORD LOSE VALUABLE HERD.

Registered Holsteins, Considered to Be Finest in Otsego County, Are Found to Be Tubercular—Loss is a Heavy One.

Milford, April 19.—C. J. Armstrong & Sons had their entire herd of 55 thoroughbred registered Holsteins tuberculin tested by the state representative last week and 38 of the lot of the herd were found tubercular. Of that number, 27 were shipped from the station here this morning to Albany and the remainder will be shipped within a few days. The Armstrong herd was considered one of the best in the county and the result of the test is a severe blow to the owners. While the state allows a reasonable amount per head for condemned tubercular cattle, the amount is small compared to the full value of registered stock and the loss is a serious one to Armstrong & Sons.

ASK ANYONE WHO SAW IT YESTERDAY — A PLAY THAT REACHES DEEP INTO YOUR VERY SOUL.

He Wouldn't Kiss His Beautiful Bride— Yet He Died to Save Her

"It would have done your heart good to know Sim Gage. Not much of a look at was Sim—in fact, they called him 'the laziest and ugliest man in the world.' Men scoffed at him, women turned away as he passed, but Sim had something the scoffers lacked—HEART. Then into the life of this victim of jibes and sneers came a young, beautiful girl, though it was not of Sim's choosing. His only friend thought a woman would fix Sim Gage up to look like other men, and advertised for a wife in his name.

The gates were cruel, yet kind to Mary Warren. She was stricken blind on the train. She could not see the men she had come to wed, but the heart of Sim won her instantly. She visualized him a big, handsome man, but her ideal was the young doctor Sim had called to help restore her sight. Then Sim is shocked when the neighbors demand he marry the girl who shares his shack. The ceremony over, Sim is told to kiss the bride, but one look at her beautiful face was enough for Sim Gage. "WOULD YOU PLEASE KISS HER FOR ME, DOC? SHE'S YOUR KIND," Sim whispers to the physician. But there's more to Sim's HEART than that—the giving up of life itself after rescuing her from the raging torrents.

Fine Steels form the Sinews of a

MAXWELL

Everything that is built to endure must have fine sinews.

A great ship, a giant locomotive, a huge bridge, a gigantic building.

Search for the sinews in a Maxwell and you discover new steels, fine steels, special steels, steels manufactured to Maxwell's own formulae.

Steels, for instance, that make possible that rare combination of extreme lightness and brute strength.

For a Maxwell is made to be light in weight. Its mission is economic transportation.

Any superfluous pound to carry around means so much more cost of operation.

But the great problem was to get steels of rare quality and great strength.

They are found in a Maxwell in axles, shaftings, gears, frame, crankshaft, connecting rods, etc., etc.

They equal, pound for pound, the steels to be found in any car made.

Costly as they are, they repay their price many times over in the lifetime of a Maxwell.

They save. They pay dividends of satisfaction.

They make friends. They are responsible for that rapid rise of Maxwell the world over.

Nearly 400,000 now in use; 100,000 more in process of construction; and fully 40 per cent of those who have decided upon a Maxwell as their first-choice car will not be able to get one this year—so overwhelming is the demand for this remarkable car.

BILLS OF PUBLIC INTEREST.

The Oneonta Chamber of Commerce
has lately by letter and telegraph urged
upon the representatives of Otsego
county in senate and assembly the
desirability of their support in legisla-
tive halls of several measures which
will be of public interest. One of them
is the Martin Arbitration bill, a measure
which has passed the senate and is
now in the assembly, but the fate of
which hangs in the balance because
of the lateness of the session. This
legislation, which is also being
supported by the New York Bar as-
sociation, is to make effective arbi-
tration clauses in commercial con-
tracts for the settlement of disputes
growing out of labor troubles. The
local chamber has wired Assemblyman
Bloomfield urging his support for this
measure.

Another measure which the Cham-
ber of Commerce is urging to passage
is one which would more effectively
regulate the sale of securities. In re-
sponse to a letter from Secretary Wal-
ter regarding this measure, Assembly-
man Bloomfield writes that it will
gratify him at the very earliest oppor-
tunity to carry out the suggestion of
the chamber relative to the proposed
legislation. Senator Adon P. Brown
also writes acknowledging receipt of
the memorial and says that while the
subject has been found a difficult and
intricate one, he hopes that success
will attend future efforts.

In connection with the same matter,
Governor Smith some time ago ap-
pointed a committee headed by Presi-
dent Hepburn of the Chase National
bank, to make a study of the matter
and report what it deemed necessary
for proper safeguarding of the pur-
chasing public. This report was made
but no direct action has as yet been
taken. As Senator Brown has stated,
the subject is so intricate, so difficult
and withal so important that the legis-
lature will probably not be able at
this session to enact a law which will
protect the public and at the same
time place no obstacles in the way of
legitimate enterprise.

A DANGEROUS SUGGESTION.

Now that the overall campaign is
on and men the country over are turn-
ing from ducks to demins, a dangerous
suggestion is being made by some who
suggest the efficient overall be
slightly altered "so as to impart a
bit of elegance to them." If that is
done the way will be opened whereby
a perfectly suitable pair of overalls
worth anywhere from 50 cents to \$3
may be quickly and inexpensively
transformed into a "creation" for
which the style as "plus," from
\$50 to \$60 may be charged.

The purpose of going into overalls
is to save money and bring down the
price of clothing. It is not to make
"visions" or "artistic creations" of
them at a figure which will make
coarse cotton as expensive as fine
woolens and linens. Let every volun-
teer member of the overall brigade,
therefore, go slow on elegance.

LIBERAL POLICY AT NESTLE'S.

Does Not Wait in Case of Injury to
Employees on State Action.

The Nestle Food company, which
has a large plant and employs a con-
siderable force in Oneonta, does not
wait in case of accident to employ-
ees until the Workmen's Compensation
act recognizes the legitimate claim for
the injury, which is usually from seven
to fourteen days. On the contrary,
the company pays the full salary of
the injured for the entire waiting per-
iod, and following the determination
by the state commission on makes up
the difference between the amount allow-
ed under the insurance act and the
normal wages of the employee.

The company feels that an employee
suddenly cut off from the source of
income by an accident is in need of
immediate encouragement in an effort
to offset any hardships that may be
brought to himself and those de-
pendent upon him. The laws for fig-
uring a normal day is taken, disre-
garding overtime and Sundays. This
plan is now in effect at the local plant
of the Nestle Food company.

TREASURE-TROVE IN MAIL BAG.

Over \$750 Found in Hobart Mail Bag
Thrown Away by Robbers.

Cobleskill, April 19. — When the
yeggs threw away in the woods near
Cobleskill the mail pouch which they
thought at the time contained nothing
of value, from the Hobart post office,
which they robbed last July, they ap-
propriated themselves from stamps to the
value of \$750. After the finding of
the pouch and its delivery to the Co-
bleskill post office, Postmaster Spring-
stead was instructed to send it to
Binghamton for inspection. After the
contents had been dried an examination
showed that among the rejected
stuff, hidden away between leaves of
pamphlets and in envelopes, the
thieves had overlooked 170 war sav-
ings stamps valued at \$700; some \$20
in postage due stamps and \$30 in war
revenue stamps. Valuable private pa-
pers of Postmaster Dixon of Hobart
were also found.

REPUBLICAN COUNTY COMMIT-
TEE URGES HIS NOMINATION
FOR STATE SENATOR.

Committee at Meeting in Oneonta Sat-
urday Elects Frank G. Sherman
as Chairman and Authorizes Auxil-
iary Member from Each District.

Oneonta county Republicans at a ses-
sion of the county committee held in
this city on Saturday unanimously en-
dorsed the candidacy of Hon. Allen J.
Bloomfield for the Republican nomi-
nation for state senator to succeed
Hon. Adon P. Brown, who has an-
nounced his intention to retire at the
close of the present session. The reso-
lutions adopted declare that he has
represented the county of Otsego in
the lower branch of the legislature for
six years to the entire satisfaction of
his constituents and requests the Re-
publican county committee of Em-
erson, Montgomery and Schoharie to en-
dorse him, which it is hoped will be
done.

The county committee elected the
following officers, most of whom are
re-elected:

Chairman—Frank G. Sherman.

Vice-Chairman—George M. Wed-

despean.

Secretary—S. H. Cross.

Treasurer—A. W. Holley.

The committee also authorized the
member elected from each election
district to name an auxiliary member
from that district who will be asso-
ciated in the work. It is assumed
that workers of the opposite sex than
the one elected will be so named and
that they will be formally designated
as auxiliary members at the next
meeting of the county committee.

The committee also filled vacancies
where they existed to assure a full
representation. The committee as now
comprised is given below by towns,
each representing election districts in
the order named:

Burlington—Charles Benis, George

JUNIOR PROJECT WORK.

Leader for Otsego County Urges En-

rollment in Activities.

P. C. Smith, junior project leader
for the county, writes to the press of
Otsego urging that attention be called
to the opportunities which the boys
and girls of the various communities
will have offered them. Already many
enrollments are coming in and there
should be a great many more before
the period when they are closed.

Are the people of Otsego county
aware, says Mr. Smith, of the many
benefits that are now being made
possible for every boy and girl up to
21 years of age? If so, yet cer-
tainly have your boy or your girl en-
roll in some one of the projects that
are being carried on throughout the
county. If not, and you want your
children to do something for them-
selves, have a garden, small patch of
potatoes, chickens, to be in a camp-
ing club, raise a calf or some lamb,
get in touch with your local school
teacher, find out all possibilities and
enroll your boy or girl.

Doing for Them-selves.

The value of a project is that your
child has something of his own, and
that he is to do, or to take care of the
work himself. The average boy or
girl learns by doing, and this is the op-
portunity afforded.

In addition to this, the club work
aids in the development of the initia-
tive, the resourcefulness, the integrity,
the loyalty, the spirit of fair play, mat-
erial values and the business sense of
the young people of the county.

Children wishing to carry on one of
the above pieces of work ought to be
encouraged by their parents.

Clubs will be formed by those en-
rolled in each project. Local leaders
will be secured and a great deal of
good work is expected to be accom-
plished. Many object lessons will
be drawn, that will materially aid every
boy and girl in their school work and
in their everyday life.

If you want to buy a home, look
around and then come and see George
Anderson, 245 Chestnut street. adv 17

COUNTY ASSIGNED \$28,500

ONEONTA'S SHARE IS \$12,221 OF
INTERCHURCH WORLD FUND.

Campaign Opens April 25 and Con-
tinues to May 2.—Daily Reports to
Be Made to County Director, Rev.
LeRoy Halbert, at Cooperstown.

The division headquarters of the
Interchurch World movement in
Binghamton have released for publi-
cation the quota for Otsego county.
The amount seems small beside the
large denominational budgets, but it is
to be remembered that it is to be
sought only from those who would
not be asked to contribute by the de-
nominations directly. This includes the
unaffiliated and the impersonal cor-
porations. The amount assigned to the
county is \$28,500. In order to meet
this the county director has appor-
tioned amounts to the communities hav-
ing more than one church as follows:

Burlington	\$232.00
Cherry Valley	\$456.00
Cooperstown	\$233.60
Edmeston	\$88.00
Garrattsville	\$255.00
Gilbertsville	\$501.00
Hartwick	\$556.00
Laurens	\$404.00
Maryland	\$244.00
Middlefield	\$209.00
Millford	\$12.00
St. Vision	\$277.00
Oneonta	\$12,221.00
Otego	\$523.00
Portlandville	\$199.00
Richfield Springs	\$1,842.00
Roseboom	\$111.00
Schenectady	\$596.00
Schuyler Lake	\$588.00
Springfield Center	\$111.00
Unadilla	\$1,249.00
Wells Bridge	\$222.00
West Edmeston	\$244.00
Westford	\$111.00
West Oneonta	\$323.00
Westville	\$333.00
Worcester	\$1,666.00
Morris	\$407.00
Toddsville	\$111.00

The following single church com-
munities and Sunday school terri-
tories are asked in addition to the secur-
ing of their own denominational funds
to care for the work with those not
affiliated with their own organizations
that all may have a chance to con-
tribute in some way:

Fly Creek	\$150.00
Unadilla Forks	\$150.00
and from each of the following \$50.00:	
Cooperstown Junction, Exeter, East	
Springfield, East Worcester, Elk	
Creek, Hyde Park, Ketchum, New Lis-	
bon, Millford Center, Middlefield Cen-	
ter, Oneonta Plains, Otsdawa, Plain-	
field, Pleasant Brook, Richfield, Snow-	
don, South Valley, South Worcester,	
West Exeter, Burlington and Decatur.	

The accredited solicitors in each
place will be provided with official

materials and use a blue subscription

card, while denominational solicitors

will use a white subscription card.

All solicitors are requested to re-

port to their captains each day of the

week beginning with Sunday, April

25, and continuing through May 2,

the period of the Interchurch cam-

paign. All community directors are

asked to telephone to the County Di-

rector, the Rev. LeRoy Halbert, Coop-

erstown, N. Y., not later than 3 p. m.,

sun time, both the Interchurch and

denominational returns for the day

that these may appear in the national

reports of the next morning.

MINSTRELS WIN FAVOR.

Accorded Flattering Press Notice in

Elmira Advertiser.

The greatest dollar's worth of the

present theatrical season was offered

at the Lyceum theatre last night when

Harvey's Minstrels, composed of col-

ored men and women, and playing at

that price as top, gave a performance

that for quality and quantity, was

worth much more. The offering ran

until 11 o'clock and there was some-

thing interesting happening every

minute.

The performance was an exhibition

of genuine old-time minstrelsy that

seemed to afford as much pleasure to

those on the stage as to those in front.

The first part yielded many songs well

sung, some clever dancing and acro-

batic work that pleased, and jokes

that received a warm welcome as old

friends. Eight end men all partici-

ated in the fun making and they all

sang solos and there were songs by

nearly every other man and woman in

the circle.

The olio was replete with pleasing

features. Alonzo Moore displayed

some magic that mystified, Frank

Kirk, the real hit of the production,

gave an unusual musical burlesque

that was as novel as it was entertain-

ing and kept the people clamoring for

more. The Australian Wakes were

seen in an extraordinary whip crack-

ing act, in which the man using a long

whip, fired off a revolver held by the

woman, lighted a match held by her,

and finally knocked off the ashes from

a cigarette which she smoked. Using

the whip, he also pulled a handker-

chief out of her breast pocket. Charles

Beechum and Helen Johnson, Whit-

ney Viney and Noah Robinson, Willie

and Mabel Edwards, Austin and Bah-

er, and Billy Nichols were also seen to

the circle.

THE farmer has been told over
and over again that he gets only
about 40 per cent of the consumer's
dollar for everything he sells. This
may be strictly true and there may
be some places where after he has
his business organization perfected
matters of distribution may be sim-
plified.

The middleman profits now be-
cause there is room for the middle-
man and there always will be room
for middlemen. The farmer is en-
titled to his proper proportion of
the consumer's dollar. In wheat he
gets probably 80 per cent of that
dollar on account of the economical
way in which the grain exchanges
handle his business. But that does
not mean that he is entitled to 80
per cent of every dollar the consumer
spends.

Service Governs Final Price.
In one of the leading restaurant
systems of Chicago coffee is five cents
a cup; tea is five cents a cup; near-
coffee is five cents a cup, and hot
water is five cents a cup. It may be
that conditions will force these prices
to go up, but the principle is that
the first cost of the commodity is

entirely lost sight of and what we
pay for is service.

The farmer in Brazil produces the
coffee berry; the farmer in Japan
furnishes the tea; the American
farmer furnishes the cereal which is
near-coffee, and God Almighty fur-
nishes the water freely from the
fountain.

Now it cannot be said that the
farmer is entitled to 80 per cent of
the price of a cup of Postum. How
could he figure the thimbleful of
grain which made that cupful?
Be Frying and Get All.
If the farmer is prepared to give
all the profit he is entitled to all
the profit. For instance, if he will
grow the wheat and grind it, bake it
into bread, wrap the bread in

DRIVE FOR FUNDS TO CONTINUE

X. M. C. A. CAMPAIGN TOTAL LAST NIGHT STOOD AT \$4,335.

Navy Wins from Army by Good Margin in Membership Competition—Methodist Tithers' Association Donates \$250—Other Contributions Acknowledged.

The total of the local X. M. C. A. fund stood at \$4,335 last night, when the week's drive officially came to an end. The campaign in Oneonta, however, will be continued until the full amount sought, \$7,500, has been raised. The workers were greatly encouraged last night when at a meeting of the Tithers' association of the First Methodist church, the sum of \$250 was pledged to the "Y." This is the first church organization in the city to come out for the X. M. C. A. and officials of the drive are urging other churches to follow the lead of the Tithers.

Last night marked the end of the competition between the Army and the Navy, the two main organizations into which the campaign workers were divided, and resulted in a substantial victory for Admiral Bookhout's forces. The standings of the different teams were as follows:

Navy—Admiral Bookhout.	
Captains.	Points

Although the competition ended last night, the teams are expected to work even harder this week in an effort to put the drive "over the top." The total for yesterday was \$437, bringing the grand total up to \$4,335. The following contributions were received: Methodist Tithers' association, \$250; H. M. Goldsmith, 50; Mr. and Mrs. W. P. APPEALS TO EPISCOPALIANS.

Archdeacon Brooks Explains Purpose of Big Nation-wide Campaign.

Archdeacon R. Brooks of Albany was present at the monthly meeting of the recently-organized Men's club of St. James' church held last evening, and explained the details and purposes of the nation-wide campaign to be conducted next month by the Protestant Episcopal church in America for the purpose of raising a large sum of money for the church's mission at home and abroad. Although having no connection with the Inter-church World movement, this campaign is along practically the same lines and has the same aims in view.

Archdeacon Brooks told the large number of men of the church gathered at the meeting that appalling conditions existed even in some parts of the district which the Albany diocese includes, where religion was practically unknown, and where immorality was unchecked. He urged the importance of the church making up to the great need that exists and said incidentally, that he hoped St. James' would do its part financially, as well as spiritually, in the nation-wide campaign.

After Archdeacon Brooks' talk, tentative plans were made for carrying on the work in this parish. On the first Sunday in May, the men making up the canvassing teams will gather in the church and receive instructions and then will go out to the different homes in the interest of the movement.

Archdeacon Brooks, accompanied by Rev. R. A. Forde, rector of St. James', will go to Walton to speak at another meeting tonight. He plans to visit several other parishes in this vicinity before returning to Albany.

Addresses Bluebird Club.

Miss Mabel Knopf, R. N., the school nurse, was present at the meeting of the Bluebird club held last Saturday afternoon in the Woman's club rooms. "Bed Making" was her topic and she gave the girls, all of whom are graduates of the sewing class of the club, an instructive talk on the changing of the bed and its care. An interesting and enjoyable afternoon was had by all the girls present.

Are You One of Them?

Who send their money to other places in order to get four per cent interest, when you can do better at home? If so, you're helping people in other places and letting home folks go broke for the need of more funds with which to loan for the getting of homes. Wouldn't it be lovely to your friends to help my bunch of over 2,000 people, who have been combining their funds with me and loaning \$199.99 per month with which to get a place to live in our home city? I am being asked for still more money, and if you'll just go to No. 54 Chestnut street you can learn of my three safe ways for placing small or large amounts and with better advantages than you are getting. I haven't time to tell you of dozens of other mighty good reasons or of how Uncle Sam helps me and asks that I do still more to make people see a hole in a ladder. I am the safe and sane Oneonta Building and Loan association. advt 11

DR. GUNSAULUS AGAIN ILL.

Causes Lecture Date for Wednesday Evening of This Week in Oneonta.

Some time ago it was announced that owing to illness, Dr. Frank W. Gunsaulus, who was booked as one of the principal speakers in the Normal and High School Lecture course, was ill and unable to come at the specified date. Afterwards his recovery was announced and Wednesday of this week was fixed as the date of the lecture. Yesterday, however, Dr. George J. Dana, who had the matter in charge received a telegram which definitely announced that he could not appear this spring in Oneonta. The telegram, which will be read with regret by the many admirers of the talented lecturer in Oneonta, is as follows:

"Dr. Harvey B. Thomas forbids leaving Chicago again. Gathering in car broke last night. Must cancel date. Sorry."

NEW OPERATING TABLE.

Presented to Fox Memorial Through Lady Board of Managers.

There has recently been added to the equipment at the Fox Memorial hospital one of the latest and most approved operating tables, one of the Clark model which is simple and compact and permits of placing the patient in almost every conceivable position desired. It is easily raised and lowered or tipped. The extremities of the patient may be elevated or lowered by a foot pedal and the table mounted on rubber wheels may be moved to any position in the room desired. It will be used for the first time this morning and it is much appreciated by the surgical staff.

It was donated to the institution and was purchased with funds raised by the Lady Board of Managers with the Thanksgiving offering and by other methods and the ladies feel gratified that they have been the means of providing so helpful an aid to the institution.

Exhibit of Needlework.

An exhibit of the work done during the past winter by the Girls' Sewing class of the Woman's club will be on display in the club rooms on Chestnut street Friday afternoon of this week from 2 to 5. The general public, as well as members of the club, are invited to inspect the work that the girls have been carrying on so faithfully, and a surprise will be store for those who doubt that girls can become skilled in needlework in such a short period of time. The club is arranging to have some of the best articles put on display in a show window on Main street.

On Saturday afternoon at 2:30, the annual graduation exercises will be held and the girls who have been regular in their attendance during the winter will be awarded diplomas. A musical program will also be carried out. The mothers of the girls have been invited to be present at this event.

Lightning Can't Strike if Shinn Gets There First!

It has been proven for twenty years, by the experience of thousands of protected buildings all over America, during the most severe electrical storms—that Lightning cannot destroy a building protected by Shinn-Flat Lightning Rods.

Shinn-Flat Lightning Rods Prevent Losses

They are distinctive in design—woven in a flat form—with 30% greater capacity for carrying electricity than old-fashioned rods. All authorities agree that this is the best form of Lightning Rod—the safest and best, also the most attractive and the least conspicuous.

PORTRAIT OF ROOSEVELT

THE HANDIWORK OF T. D. TALLMADGE ON EXHIBITION AT HEIRIEFF'S.

Pictures the Foremost American of His Day in All His Ragged Honesty—May Adorn Walls of Oneonta Club.

There is on exhibition in the show window of Heirreff's Clothes shop a portrait of the lamented Roosevelt—the foremost American of his day—the work of Thomas D. Tallmadge with Underwood & Underwood of New York. On a recent visit to New York City it was much admired by L. L. Gardner of this city and at the suggestion of Mr. Gardner the portrait was forwarded to this city, the old home of the artist and a city in which Mr. Roosevelt was much admired. It will be gratifying to the many friends of Mr. Tallmadge to learn that it is the favorite portrait of Mr. Roosevelt and that it has been an exhibition in New York city, Washington and Philadelphia and also that Mr. Tallmadge is engaged in painting a duplicate for the Union club of New York city.

Mr. Tallmadge, commenting on the work, states that he made no attempt to produce a fancy picture but the rather to bring out all the rugged qualities the man possessed. He had an excellent opportunity to study his subject at the studios of Underwood & Underwood, and the production will be admired by all who inspect it. It will remain in the window of Heirreff's for several days and all citizens are invited to inspect it.

It has been suggested that in view of the man who represented so much of what typifies the truly representative American and of the artist's relations to this city, that it should be retained here. When Mr. Roosevelt visited Oneonta on one occasion, he greeted thousands of the residents of this section at the Oneonta club and there are a number of members of that organization who are interested in having it permanently adorn its walls. It is confidently believed that it will not be permitted to leave the city once it has been seen and appreciated and not unlikely it will be found on the walls of the Dietz street club.

LANGUAGE WISER THAN PEOPLE WHO USE IT

Coleridge Likens System of Words to an Armory Full of Trophies.

"Language is the armory of the human mind, and at once contains the trophies of the past, and the weapons of its future conquests." Thus wrote Coleridge, a veritable master of language.

Another learned scholar says that a language will often be wiser, not merely than the ignorant, but even than the wisest who speak it. He likens it to an armory in its efficacy to circulate the electric spirit of truth, like a number also in embalming and preserving the relics of ancient wisdom, although one is often puzzled to decipher its contents. Sometimes, too, it locks up truths which were once well known, but which, in the course of ages, have passed out of sight and been forgotten. Again, it holds the germs of truths, of which the genius of its framers caught a glimpse in a happy moment of inspiration. This is why language is so important in every age and to every person.

A dictionary being the best instrument with which to study language, thus acquiring new words, and better understanding of old ones, would seem to be a necessity to anyone desiring to improve himself. In this day of fierce competition, words can literally be coined into dollars. We thus consider our offer of The New Universities Dictionary as a genuine boon to our readers. Our coupon offer elsewhere in to-day's paper shows how to acquire it almost free.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief. Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite—colic of the chest (it often prevents pneumonia). It is always dependable. 30c and 60c jars; hospital size \$2.50.

GRAVE OF FOUR DYNASTIES

Ambitions of Austria, Russia, Germany and Turkey All Lie Buried in the Balkans.

We stood on the forward deck of the Siro as she slipped southward, through the placid waters of the Adriatic, at 20 knots an hour. Less than a league away the Balkan mountains, savage, mysterious, forbidding, rose in a rocky rampart against the eastern sky.

"Did it ever occur to you," remarked the Italian officer who stood beside me, a noted historian in his own land, "that four great empires have died as a result of their lust for dominion over the restless lands which lie beyond those mountains? Austria coveted Serbia—and the empire of the Hapsburgs is in fragments now. Russia, seeing her influence in the peninsula imperiled, hastened to the support of her fellow Slavs—but Russia has gone down in red ruin, and the Romanoffs are dead, Germany, seeking a gateway to the warm water, and a highway to the East, seized on the excuse thus offered to launch her war-lust armies—and the empire reared by the Hohenzollerns is bankrupt and broken. Turkey fought to retain her hold on such European territory as still remained under the crescent banner. Today a postmortem is about to be held on the Turkish empire and the house of Osman.

"Think of it! Four great empires, four ancient dynasties, lie buried over there in the Balkans. It is something more than a range of mountains at which we are looking; it is the wall of a cemetery."—E. Alexander Powell in Scribner's Magazine.

Russian Painters Thriving. "Art," so far as the production of pictures is concerned, is said to have had a great boom in bolshevist Russia owing to the fact that the government pays a liberal amount for all works approved by official experts.

The whole domain of art has been placed under the control of a council of seven members, four of whom are apostles of futurism. Artists' earnings have been increased through a rule established by the council under which all pictures that pass the judges are to be paid for at the uniform rate of 7,000 rubles each.

Whether the artist has devoted months of assiduous labor to a picture or whether it is a dabb which has taken a few hours to paint, the recompense is the same. With such encouragement the number of artists in Russia is increasing rapidly.

PLAN CLINICS TO STUDY CRIME

Psychiatric Research Offers Possibilities in the Solving of Problems.

WORK RENEWED AFTER WAR

Preventive Rather Than Cure Is the Watchword of the Modern Psychiatrist—Reach Them Before Crime Becomes a Habit.

New York.—Broad possibilities for the operation of psychiatric clinics in connection with courts and correctional institutions during the reconstruction period are outlined in an article appearing in Mental Hygiene, written by Dr. Thomas W. Salmon, medical director of the national committee for mental hygiene. The title of the article is "Some New Problems for Psychiatric Research in Delinquency."

The work of which Dr. Salmon writes was well under way in a number of institutions, notably in the vicinity of New York City, when war interrupted it, taking many of the trained psychiatrists into the service and otherwise curtailing the effort to apply the principles of modern psychiatry to the handling of persons accused of crime and those already convicted.

Sufficient progress had been made with the work, says Dr. Salmon, to assure it of an important place in all future efforts to get at the roots of crime and delinquency and to make it certain that these conditions "can no more be successfully managed without investigating the state of the organ of conduct than disorders of other kinds can be treated without understanding the processes responsible for them."

Its Importance in Courts.

The beginning of the application of psychiatry to crime and delinquency was through clinics in children's courts. Successful here, it spread into other criminal courts and into institutions where, according to Dr. Salmon, it is destined to play an important part in determining the best methods for handling prisoners so as to do the best by them and by society as well.

In connection with the part the psychiatrist is destined to play in modern court procedure, Dr. Salmon believes that the establishment of such clinics, presided over by experts with no connection with either side of the cases tried, will go a long way toward bringing about better conditions. Concerning the so-called "alienist" and his "expert testimony," Dr. Salmon says:

"Why supreme courts and courts of the general sessions content themselves with the so-called medico-legal testimony of 'alienists' employed by the district attorney and the defense—which is neither medical nor legal—remains a mystery. The findings of a psychiatric clinic, scientifically and impartially conducted with the sole purpose of aiding the judges in disposing of human issues before them, have more practical value than all the expert testimony that either side could purchase with the proceeds of a liberty loan."

Wide Field for Investigation.

Interesting especially is the suggestion by Dr. Salmon of the possibilities of finding out the deep seated causes of anti-social conduct in the individual through psychiatry. He says a comparatively small element furnishes the crime of a community and affords a field for scientific and impartial, unprejudiced study that is rich and almost virgin.

He thinks that this phase of criminology has barely been scratched and yet believes it should be carried far in an endeavor to trace to their sources the original impulses for crime, so that eventually remedies may be found.

Prevention, rather than cure, is the watchword of the modern psychiatrist, as it is of the modern physician, although neither is inclined to neglect the person who has fallen ill. Dr. Salmon emphasizes the need of clinics that may reach first offenders before crime has become a habit. These, discovering the sources of criminal impulses and applying the proper remedies, may restore many persons of anti-social tendencies to society as normal citizens, in the opinion of Dr. Salmon.

Hawaii Led in Prohibition.

Historians of the Hawaiian Islands assert that an Hawaiian monarchy was the first government in the world to put absolute prohibition into effect. Kamehameha the Great, first king of United Hawaii, in 1795, after having conquered all the other islands, issued an edict imposing prohibition. Its penalties were drastic. An offender was stripped of his property, real and personal, and was driven from his village clad only in a loincloth.

In later years foreign nations forced liquor on the Hawaiians and its sale was general in the islands until the great war, when, with the opening of the army training camps on the islands, prohibition went into effect.

Town Sells for \$10,000.

The entire town of Moneta, Wyo., has been sold for \$10,000. The purchaser, John Goodman, received title from A. Kanson, who founded Moneta twenty years ago, to the following: One tonnage of forty lots, one eighteen-room hotel, one five-room cottage, one three-room cottage, two two-room cottages, one large livery barn, one railroad eating house and a miscellaneous assortment of outbuildings. No person other than Goodman owns a single thing in Moneta, but the Chicago and Northwestern owns the right of way on which the town site fronts and a small depot building on this right of way.—Christian Science Monitor.

Know It Well

Familiar Features Well Known to Hundreds of Oneonta Citizens.

A familiar burden in many homes. The burden of a "bad back." A lame, a weak or an aching back. Often tells you of kidney ills. Doan's Kidney Pills are for weak kidneys. Ask your neighbor. Here is Oneonta testimony.

Mrs. A. A. Johnson, 45 Main street, says: "A short time ago I had a spell of kidney trouble. I had sharp pains in my kidneys and my back ached terribly. When I stooped I could hardly straighten up again and spots appeared before my eyes, blurred my sight. My kidneys acted irregularly, too. After taking one box of Doan's Kidney Pills I felt better."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Johnson had. Foster-McBride Co., Mfrs., Buffalo, N. Y.

LIGHT NOW PLACED ON MAP

Uncle Sam Officially Recognizes Beacon Designed to Commemorate the Titanic Disaster.

After seven years the "true" light in the lighthouse on the roof of the Seamen's church insurance has obtained official recognition on the government charts of New York harbor. For years this green beacon was ignored. Later it was recorded as a "fixed point." Now it is marked with a star on maps.

The lighthouse was erected to commemorate the heroes of the greatest marine disaster in the modern world, the sinking of the steamship Titanic off Newfoundland April 15, 1912. The lighthouse was dedicated on the first anniversary of the disaster as a memorial created by public subscription and the work of prominent women. The light called "true" by seamen, soon was guiding pilots who, as they "turned the Hook" 15 miles or more away, might make out the green and brilliant star supplied by the 7,500 candle power of three Cooper Hewitt quartz electric lamps 211 feet above the city streets. This green light on the starboard especially provided an excellent range for vessels taking their way to the East river.

The lighthouse also has carried since November 1, 1913, a time ball 4 feet in diameter which drops each day at "standard mean" noon, when, as "Army remarks to B. H. down in 'the slip,'" "she's jes 5 o'clock in Lummia."

Whence Comes Turpentine. Most people know that turpentine is a product of the pine tree, yet are not acquainted with the means by which it is obtained.

Beneath the bark of the tree are resin-secreting cells, whose output is meant by nature for healing wounds. If the skin of the tree be wounded, severely, many more of these cells, much larger in size, develop and pour out great quantities of resin.

Hence, to procure the resin, the bark is well scarred with cuts (preferably made in a series of parallel V's), and a receptacle is placed beneath to catch the fluid as it exudes.

The fluid is then distilled and the volatile part of it, which passes over, is turpentine. The residue is what we call "rosin" and is used for many purposes, one of its employments being in the manufacture of explosives.—Kansas City Star.

Hellenist.

Hellenism was one of the names of the inhabitants of ancient Greece, and the word Hellenist meant one who affected Greek manners, especially a person of Jewish extraction who used the Greek language as his mother tongue, as did the Jews of Asia Minor, Greece, Syria and elsewhere. Many of the Jews scattered through the provinces of Asia Minor during the first century of the Christian era were Hellenists.

Less Than a Nickel a Week

This is all that Swift & Company's profit cost the average American family in 1919.

Here are the figures and authorities for them.

The average consumption of meat per person for a year is about 180 pounds (U. S. Government).

The average American family is 4½ persons (U. S. Census).

Swift & Company's profit from all sources in 1919 averaged less than ¼ cent per pound on all products including meat.

This averages for the family less than the price of—

1 cigar per week for father, or
1 street car fare per week for mother, or
1 package of gum per week for the children.

The complex service which we furnish the public is efficient and economical. The cost to the public in the shape of profit is too small to be noticeable in the family meat bill.

ALIENS LEAVE BY WHOLESALE

6,000 Are Sailing Weekly for Europe Where Dollar Is Potent.

CAUSE OF LABOR SHORTAGE

Difficulties of Traveling in Europe and Danger of Losing Their Money Has No Influence on Aliens Eager to Return.

New York.—Wholesale re-emigration of aliens in America began last April and is continuing in ever growing numbers. Steamship ticket agents agree that 6,000 are leaving for Europe weekly, although the immigration is confined to Italians and Belgians.

I have been in contact with a great number of alien laborers in the United States since my return from Europe in January and I find that a great percentage of them are preparing to leave the states, writes Joseph Szabenyi in the New York Times. Among the Hungarians and those coming from the newly formed states in eastern Europe, 50 per cent are about to return to the old country.

The resultant labor shortage especially is being felt already, and employers of alien labor are forced to advertise continually in order to replace the hands leaving week after week. They are spending thousands of dollars on advertisements in Slovak and Hungarian papers. Mining companies especially prefer Hungarian workers because they are steady and hard workers, doing jobs no others would do, and earning in most cases up to \$120 a week.

Causes of Re-Emigration.

The causes of the wholesale re-emigration may be found in the following facts:

1. Alien laborers have saved up money during the war, when they were barred from sending it home, and, according to bankers dealing exclusively with them, they have an average of \$3,000. If we take what a dollar is worth in eastern Europe, it is easy to comprehend that the worker exchanging his dollars into kronen becomes the richest man in his village, a lure very few could withstand. For \$3,000 he gets as much as 750,000 kronen, enough to buy out the richest landlord in his district.

2. Prohibition.

3. The laborer has not seen his family, many have not even heard from them, for six to ten years.

4. The high cost of living in America.

Geza D. Berko, managing editor of the Hungarian Daily, who has his finger on the alien movements in America more than any one else, when questioned on the subject said:

"The re-emigration is slow because there is not sufficient shipping. There are only five steamers weekly available for eastern Europe at present, and yet 6,000 are leaving by them. Should the sailing facilities improve, and the passport question be simplified, it will grow by leaps and bounds."

Cannot Be Dissuaded.

The manager of Emil Kliss' banking house, the largest ticket agents on the east side, said that they were discouraging re-emigration as much as possible, and explained to applicants the difficulties of traveling in Europe, the danger of losing their kits and money on the way.

"Yet it is impossible to persuade them to stay," the clerks assert. "There are letters from former travelers who say that they have been cheated and robbed of their possessions, arrived home stripped of everything, yet you can't induce them to stay."

"Do you discourage exchange of dollars as well?" I asked.

"We do, but the constant fall in the exchange makes it difficult. By the time the man arrives home he gets more for his dollars, so he prefers taking it in cash, as most of them are ignorant people who mistrust drafts. Now, in traveling through Europe the victim—for you can't call him by any other name—encounters laws in every country prohibiting the export of dollars. If he lands in France his money is exchanged into francs. In Germany into marks. In Austria or Yugoslavia into kronen, being 10 or more per cent everywhere."

Some of the re-emigrants travel through five countries and thus lose 50 per cent of their money on forced exchange. In France there are even graver difficulties, for even the export of French money to exceed 1,000 francs is prohibited. The traveler must get a state permit, a procedure taking sometimes weeks. The whole of Europe is hungry for dollars.

Jiu-Jitsu Not Japanese.

Jiu-Jitsu is supposed to come from Japan, but an art of self-defense virtually identical with it was taught in Europe during the seventeenth century. Its principles are expounded in a book by one Nicholas Peters, published at Amsterdam in 1674, which bears the long explanatory title: "The Art of Wrestling, and how one can protect oneself in all kinds of quarrels that may occur; how one can with agility and rapidity repel all unfair attacks, and meet one's adversary with science."

White Pearls Most Valuable.

Pearls that come from the coast of Australia are of many shapes and colors. Those under ten grains are sold by the ounce; above that by the grain. Color has a deal to do with the value. The white pearls go mostly to Europe and the yellow ones to India. In Australia an ounce of good white pearls will fetch up to \$500, but sometimes realize only a fifth of that amount. The yellow pearls may be rated on an average of about half the value of the white ones.

Red-Haired Old Maids Scarce, Says Briton

London.—Have you noticed that there are very few red-haired old maids? said an authoritative anthropologist. "Red-haired people are of a very high order of intelligence. Consequently red-haired girls have many admirers and marry young."

His opinion was expressed relative to the statement of a cinema producer that brunettes are cleverer than blondes. Several scientists agreed generally that both men and women of dark complexion are quick-witted and imaginative, while the great majority of fair people are more hardheaded but a little slower in mental response.

CHECK ON TRICKY "COPPERS"

Simple Contrivance Prevents Fraud on the Part of Applicants for Coveted Positions.

In Philadelphia the position of traffic policeman is open only to men who are six feet or more in height. Such positions are so much sought after that many applicants who fall short of the required height by only a small fraction of an inch are tempted to cheat a little bit by rising on their heels.

An ingenious application of electricity is now used to circumvent this trick, and any attempt to register a fraudulent measure is disclosed at once. The applicant, as he stands upon the platform under the slide rule, sets his feet upon two metal plates that are normally a trifle above the platform. They are just large enough to be covered by a man's heels, and when the candidate stands with his heels on the floor the plates are so depressed that they make a contact and form a circuit that lights a lamp overhead. As long as the man stands with both heels on the ground the lamp stays lighted, but the moment he raises either heel the smallest part of an inch the contact is broken and the lamp goes out. So does he.

FINDS \$7,500 NECKLACE

New York Letter Carrier Gives It to His Child.

John C. Carson, a letter carrier, found a "bright trunk" in front of the Majestic hotel in New York while making his rounds. Soon afterwards when Mrs. L. T. Lazaro, a guest of the hotel, reported the loss of a \$7,500 string of pearls, a detective visited Carson's room and found his baby playing with it on the kitchen floor. Carson said he thought it was a "child's toy" and was rewarded \$100 for finding the necklace.

Does 3¢ = Americanism?

Did you know that 3c is MORE than the churches average from each member per day?

WE AMERICANS may be thoughtless. Sometimes we may appear selfish. But when a great need arises, no one can say that we have ever shirked.

Ask any son of France. Ask any soldier of Great Britain. Or ask any Armenian mother or a girl with a red cross on her sleeve or one with a tambourine in her hand.

And now the churches come to us for help—our churches. Not begging. Not asking alms. But with heads lifted high facing a task so worthy that we, as loyal Americans, ought to feel it a privilege to help

Here is the Plain, Unvarnished Truth

We don't need to be told that the church is the heart of the Nation. We admit its influence for lasting good in our children. We see its stabilizing influence on our communities. We know a little of its great hospitals, its homes for children, its schools and colleges here and abroad.

But most of us do not realize how pitifully inadequate the support of the churches is when compared to the urgent needs.

Less than 3¢ a day!

In spite of the great tasks which we expect our churches to carry out, those of us who give to the church—and the number is all too few—are now giving an average of less than 3¢ a day for all church purposes.

Less than 3¢ a day.

Shall our churches go on? It is for you to say.

Without your help the work of your church must be just that much less.

Give—and give from your heart as well as from your pocketbook.

A World Survey Was Made

Our churches know the needs that must be met. They know exactly how every dollar—every penny—will be used for the greatest good without waste.

A world survey was made by the churches that astounds business men in its thoroughness. Country after country was studied; the countries of the world were visited and reported in minute detail.

How the Interchurch World Movement Originated

Our churches said: "The task of meeting the urgent needs shown by the world survey is too great for us to do individually as denominations. We must do this work together."

So thirty great denominations are cooperating—each keeping its own purpose and identity—but all working together under the name of the Interchurch World Movement.

Because of this cooperation, it is estimated that over one million dollars will be saved alone in eliminating waste and duplication.

JOHN BARLEYCORN'S "WAKE"

Three Men Tell Judge How They Consumed Drinks with the "Kick."

The city court room yesterday morning resembled the days when John Barleycorn was in his prime, for three men arrested Sunday in an intoxicated condition on the streets of the city were arraigned before Judge Huntington and sentenced.

John Olmstead and Herman Kuttner, both of this city, who were apprehended on Bruno street late Sunday afternoon, pleaded guilty to the charge of public intoxication. Olmstead was sentenced to 60 days in the county jail at Cooperstown, and Kuttner, who had been before the judge only three weeks before, will have 72 days in the jail to "think it over."

Glenn Wood, also of this city, who was arrested Sunday night on Main street by Patrolman Cross, was fined \$5, which he paid.

The three men said the way they got their "fire water" was by adding some Jamaica ginger to bottles of Horrie Vio, a medicinal wine on sale in this city, which is said to contain about seven per cent of alcohol. Numbered among the "patients" of Horrie Vio are several former partakers of the flowing bowl, who claim that by "deceiving it up" with a little Jamaica ginger they got the much-desired "kick."

Another Man in the Toils.

Patrolman Cross arrested John W. Murphy, a laborer of 11 Gault avenue, last evening on South Main street. Murphy evidently had been drinking to his heart's content and the policeman had some little difficulty in "rowing" him to the city jail, where he spent the night. He will be arraigned this morning.

If You Suffer After Eating

Take three or four 5-grain Bi-neesia tablets in a little hot water. This remedy safely neutralizes the acid, stops the food fermentation and gives your stomach a chance to proceed with its work in a peaceful, normal manner. Views of the Stars.

People in the southern hemisphere see different stars, but there are some constellations which are visible at different times of the year in both hemispheres. If the earth's axis kept always perpendicular to the plane of its orbit none of the northern constellations would ever be seen in the southern hemisphere, but as the axis inclines first one way and then the other, some of both sets can be seen at different times.

Peets Found Guilty of Assault.

Frank Peets of this city was arrested Saturday by Patrolman Jones on a warrant issued by Attorney Lynn W. Harshaw, charging him with assault in the third degree. When arraigned later in city court before Acting Judge Harshaw, he pleaded guilty to the charge and was sentenced to pay a fine of \$15 and to serve six months in the county jail. The jail sentence was suspended when Peets paid his fine.

GOLDINE DOES AWAY WITH GAS IN STOMACH

It is a recognized fact that gas in the stomach is dangerous and should be guarded against by everyone. Physicians have estimated that a large percentage of deaths from heart trouble are due to the heart action being stopped by the pressure of gas against it. Palpitation of the heart is nearly always caused by gas trouble.

You can readily see that you are taken aback if you are troubled with gas and do nothing to get rid of it. Besides being an indication of a diseased stomach, when in itself it causes for concern, it is a warning that some time in the future so much gas will gather around the heart that the heart action will cease to press against the walls of that organ and stop its action.

There is one sure way of getting rid of gas and danger of death by heart failure. Hold on to the back ready. Goldine is sold by thousands to be the one medicine which gives relief for stomach trouble, gas, flatulence, indigestion, constipation and other similar ailments. And Goldine No. 1 is the medicine for you to get if you are troubled with gas.

Just read the experience of Jacob Reiter, who says: "For more than four years I had gas in my stomach and nothing helped to get rid of it. Finally I found that Goldine was the best medicine in the market and I went to the drug store and got a bottle of Goldine. Now I am relieved immediately. So I recommend to all my friends who are troubled with gas to purchase Goldine. What it will do for me, it will do for others and I think it is the most wonderful remedy I've ever used."

WERE BURIED IN PYRAMIDS

Aztec Dignitaries Had Impending Tombs in the Little Village of San Juan Teotihuacan.

The little village of San Juan Teotihuacan, which in the Aztec language meant "City of the Gods," was in the early days of Aztec history the scene of extraordinary religious ceremonies. The two pyramids, one dedicated to the sun, the other to the moon, are known to have been the tombs in which hundreds of tribal dignitaries were buried and excavators have exhumed wrought stone containing human bones, obsidian knives, terra cotta beads with broad faces and flat noses, fragments of rare pottery and great numbers of arrowheads. One of the most recent and most valuable discoveries was a jadeite mask of some past monarch, with the brow covered with the diadem known to early Mexican history. The pyramid to the sun and the one to the moon both contain chambers and their several stories are complete temples in themselves, but connected by winding stairs.

The inscriptions having Chinese characteristics were discovered through excavating in the ruins of what has generally been known as La Ciudadela (The Citadel), but which, according to recent reports of investigators, are what is left of a pyramid larger and, perhaps, older than the two pyramids to the sun and the moon.

IRISH SOLDIER SLAIN ON WAY FROM MASS

Week End Outbreaks Are Reported from Belfast and Dublin Districts

Dublin, April 18.—Sergeant Karol was killed and Constable Collins seriously wounded today while returning from mass at the Kilmihil church in Kilmihil, West Clare. The men were shot from behind. Karol's heart was pierced by a revolver bullet.

Constable Marjory who was with Collins was not wounded. He returned the fire of the assassins, killing Stephen Green, the son of a farmer, and wounding two or three other persons.

Belfast, April 18.—Sticks, stones and iron bars were freely used and revolver shots occasionally were exchanged in a five-hour melee at Londonderry last evening. Three separate attacks on soldiers were made by civilians and factional fights occurred between unionists and Sinn Feiners. These necessitated frequent charges by the police and military, in which 12 persons were injured. Their wounds were treated at the local infirmary.

The police barracks at Rossville were considerably damaged by a mob. Two arrests were made in this connection.
